## FRESH Start History

Since 2005, 50 young people have been changed through CYM's Fresh Start Vocational Training Program. These young people included student leaders, teen parents, juvenile offenders, youth with special needs and disabilities, and those that are considered at-risk.

Fresh Start Café opened in 2005 with a goal of providing vocational training for teen parents and other youth in pursuit of attaining goals for a successful future. CYM quality childcare was made available through a 5-yr grant from First 5 Fresno County that resulted in The Learning Center

Both of these programs have struggled with financial sustainability in the current economic climate, which contributed to losses for CYM during the previous two years that put the organization at risk. Because of these continuing losses, the board, together with staff, decided to close these programs in 2011 in order to move toward a healthier financial balance and thereby be good stewards of the resources that God has made available.

**THANK YOU**  
for supporting our youth!!!

Thanks to the encouragement and generous support of donors to keep giving students a fresh start through vocational training, CYM has re-opened Fresh Start for coffee, smoothies and pastries in the original location at 759 G Street in Reedley. Teen moms from the CYM Teen Parent Mentoring Program are serving up coffee and delicious pastries every day.
